Grease Lightning™ Synthetic Multi-Purpose

OVERVIEW

- Multi-Purpose Use, high-temperature lithium complex grease that combines premium base oils and the right additives to provide excellent resistance to water washout, rust, and corrosion.
- Superior protection for a variety of applications including automotive, agricultural, trucking, mining, construction, industrial equipment and everyday use.

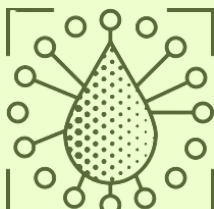

FEATURES & BENEFITS

GC-LB

- Wide Operating Temperature Range effective in extreme cold and high heat environments, from -40°F to 485°F.
- Premium Advanced Additive Package includes anti-wear, rust, and corrosion inhibitors for extended protection.
- Excellent Four Ball Wear and extreme pressure performance.
- Highly recommended for wheel bearing applications.
- NLGI certified wheel bearing and chassis lubricant.

APPLICATIONS

- Severe service requirements such as automotive wheel bearings, boat trailer wheel bearings, pivot pins on construction equipment, and straw chopper bearings on a farming equipment.
- Heavily loaded industrial, mining, and construction application.
- Every day use such as garage door hinge pins, bicycle chains, snow blower gears, and BBQ lid hinges.
- Refer to owner's manual for proper lubrication recommendation.

Grease Lightning™ Synthetic Multi-Purpose

Properties of Synthetic Multi-Purpose

Material Code	Material Code
NLGI Consistency	Grade 2
NLGI Certified, ASTM D4950	GC-LB
Thickener Type	LiComplex
Texture	Tacky
Color	Lime Green
Worked Penetration, ASTM D217	293
Dropping Point, ASTM D2265	254°C
Water Washout, ASTM D1264	5.00%
Rust Prevention, ASTM D1743	Pass
Oil Separation, ASTM D1742	0.08%
Four-Ball Wear, ASTM D2266	.485mm
Four-Ball Weld, ASTM D2596	≥620kg
Four-Ball Load Wear Index, ASTM D2596	75
Temperature Range	-40 to 485°F
